Project Management Certification Preparation

For organizations, the most significant benefit of PMI credentials is that it allows them to assemble project teams of credential holders and reap many rewards, ranging from improved processes and results to employee retention.

For individuals who obtain and maintain PMI credentials, you not only get recognized for your skills and knowledge during the vigorous credentialing process, but also show your dedication to the profession and professional development.

WHO SHOULD ATTEND Experienced project managers who lead and direct cross-functional teams to deliver projects within the constraints of schedule, budget, and scope; who are preparing to take the PMP Certification Exam after June 30, 2009; and who meet the following requirements: High school diploma/global equivalent and 5 years project management experience, OR Bachelor’s degree/global equivalent and 3 years project management experience. Please note: All project management experience must have been accrued within the last eight consecutive years prior to the application submission.

BENEFITS Completing this course will provide an overview of the knowledge required to successfully complete the PMP Exam and acquire the mandatory 35 hours of project management education.

LEARNING OBJECTIVES After completing this course, participants will be able to demonstrate increased knowledge of the expectations of a Project Management Professional (PMP). This includes but is not limited to the ability to:

- Plan, execute, and finalize projects according to strict deadlines and within budget
- Acquire resources and coordinate the efforts of team members and third-party contractors or consultants
- Deliver projects according to plan
- Define the project’s objectives
- Oversee quality control throughout the life cycle of the project

$750.00* (Textbooks Required)
