MEET THE INSTRUCTOR
ED KUNY

IFMA Facility Management Professional

Ed has been an Engineering Manager at the VA Medical Center here in Houston since January 2000. He is responsible for building systems, plant operations, safety and industrial hygiene, construction projects, housekeeping, maintenance and repair in compliance with all local, state and federal laws pertaining to facility operations for 3 million square ft facilities. He provides oversight of 130 employees including engineers, trades and crafts, and electronics technicians and is accountable for the preparation and administration of the $45 million budget and policy formulation for Facilities Management Operations.

Ed earned his Bachelor of Science Engineering in 1982 from Texas A&M University, College Station.

This course encompasses the four knowledge domains, as determined by the International Facility Management Association (IFMA) global job task analysis and are deemed critical to the foundation of knowledge required of facility managers, and therefore are taught and tested by the IFMA FMP Credential Program.
